MY PROJECTS

Discord Clone   **05/2024 - 06/2024**

https://nextjs-discord-clone-production-eb6a.up.railway.app

• Developed a full-stack Discord clone app enabling text, voice, and video communication, server and channel management, user authentication, moderation tools, and a responsive design.
• Implemented real-time communication features.
• Enhanced user experience by designing the interface to closely resemble the original Discord application.

Jobify (Web app for job search)   **02/2024 - 03/2024**

https://jobify-io.netlify.app

• Simplified the job search process with a one-swipe application system for job seekers.
• Designed two user roles: "Employer" and "Employee".
• Enabled Employers to create job postings.
• Allowed Employees to view detailed information about job postings, save jobs they are interested in, and contact Recruiters via email.
• Use email@gmail.com and password 123123123 to log in as an Employer and any random email to log in as an Employee.

Weather App   **11/2023 - 11/2023**

https://weather-app-nazar.netlify.app

• Developed a weather app that allows users to check the weather in their current location.
• Improved user experience by designing an intuitive interface for the application.
• Implemented all necessary metrics for users to check the weather efficiently.

WORK EXPERIENCE

Boolean UK   **08/2023 - 03/2024**

• Web Application Development: Created frontend and full stack applications using React, Express, PostgreSQL, and Prisma ORM, showcasing adaptability and problem-solving skills.
• Scrum Master: Led a team of 6 as Scrum Master during a team project, emphasizing team building and pair programming, which enhanced collaboration and communication.
• Internationalization & Security: Worked on the internationalization, authorization, and authentication of applications, showcasing attention to detail and a strong focus on user security.
• Client Website Development: Developed a website for a client following their requirements and epics using agile development and CI/CD, demonstrating project management skills and client-focused communication.
• Continuous Learning: Spent 6 months coding, learning new features, frameworks, writing tests, and microservices for applications, showing a commitment to continuous learning and professional development.
• Full Stack Application: Created a job search full stack application using SDLC, highlighting systematic thinking and end-to-end development skills.

Easy Champ   **2022 - 2022**

• User Experience Improvement: Enhanced user experience by developing a React JS front-end for a sports tournament website, reflecting a user-centered approach and creativity.
• UI Functionality: Improved user interface functionality by integrating with a Python-based server, showcasing technical proficiency and innovative problem-solving.
• Agile Project Management: Implemented Agile project management using JIRA, demonstrating organizational skills and the ability to manage time effectively.

4 Stiny   **2021 - 2021**

• Sales Increase: Boosted sales by creating a Telegram bot for selling products using Node.js, illustrating entrepreneurial thinking and initiative.
• Admin Dashboard: Developed an admin dashboard for product overview, new product additions, and updates, displaying organizational skills and attention to detail.
• Bot Control: Managed the Telegram bot and all products through the created admin dashboard, reflecting strong problem-solving skills and technical acumen.

Freelancer   **2020 - 2022**

• E-commerce Website: Increased store sales by launching an e-commerce website, showcasing business acumen and a results-oriented approach.
• Business Visibility: Enhanced business visibility by developing informative websites and improving UI/UX of older sites, demonstrating creativity and user-centered design.
• Issue Resolution: Resolved issues in existing websites, ensuring smooth functionality, reflecting analytical thinking and perseverance.
• Website Development: Designed and developed websites using WordPress, HTML & CSS, and Vanilla JavaScript, highlighting versatility and technical expertise.
